

Configuration Setup Guide

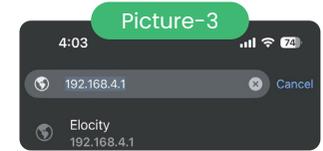

Step 1: Wi-Fi Setup

- 1 Enable the Wi-Fi on your mobile device and disable the mobile data.
- 2 Power on the ELOCITY EV charger and connect your mobile device to the charger's Wi-Fi network. Select the network name that matches the serial number and then enter the password elocity123 (Refer to Picture 1). Remain connected to this network, even if it shows "No Internet Connection." (Refer to Picture 2)

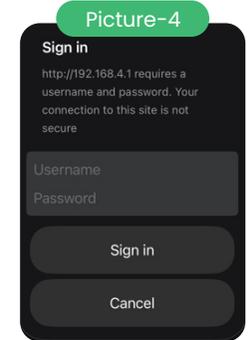

- 3 Open a web browser on your mobile device and enter the following IP address in the address bar to access the local configuration page: 192.168.4.1 (Refer to Picture 3)

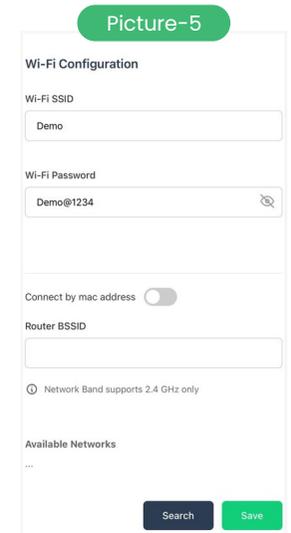

- 4 Log in using the following credentials:

Username: elocity
Password: elocity123
(Refer to Picture 4)

- 5 On the configuration page, update the Wi-Fi SSID, Password, and optional BSSID. Ensure the selected SSID operates on the 2.4 GHz band, as the charger does not support 5 GHz networks. After making the changes, confirm the signal strength is better than -65 RSSI (optimal range: -35 to -65 RSSI). (Refer to Picture 5)

- 6 Select the Save button, then Wi-Fi configuration saved successfully

Step 2: HIEV Mobile App Instructions

1. Open the App Store/Google Play Store on your device.
2. Create an account and sign in.
3. Tap the QR button and scan the QR sticker attached to the charging station.
4. Tap the START CHARGING button.

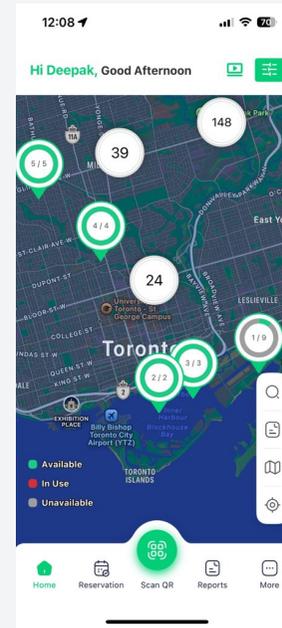

1

Home Page

You can perform the following tasks:

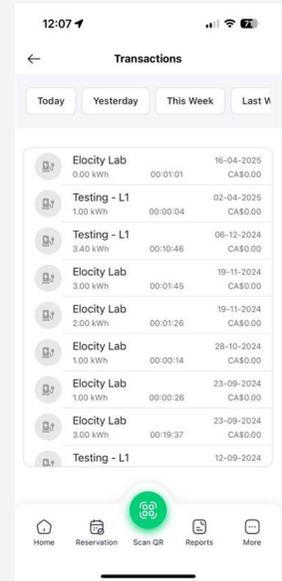

- > View driving directions
- > Scan the QR code to start charging your vehicle
- > Mark the location as a favorite

2

CHARGING HISTORY

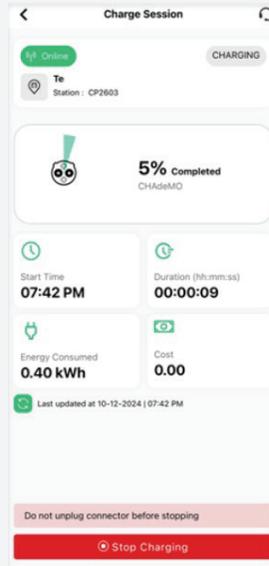

Provides session history and energy consumption details. Select a session to view detailed statistics.

3

Real-Time Charging Updates

Get real-time charging updates in the app for complete session visibility. Stay informed with live charging status, energy usage, and session progress updates.

4

INVOICE

You can perform the following tasks:

- > Reach out to support (A)
- > Email invoice (B)
- > Download invoice (C)

5

Reports

Access charging analytics for your selected time range. Track energy, cost, usage hours, and sessions in one dashboard. Tap any section for detailed reports.
